THE HASHER

PREMIUM CBD HASH & CBD FLOWER

The calligraphic signature

The wordmark is the primary recognizable asset.

A large, stylized calligraphic signature in acid yellow. The word 'The' is written in a cursive script above 'Hasher', which is in a more bold, expressive script with thick downstrokes and thin upstrokes.

PRIMARY USE

Acid yellow wordmark on near black. Keep the artwork flat, high contrast and free from effects.

REVERSE USE

A solid yellow rectangular box containing the words 'The Hasher' in a black, clean, sans-serif typeface, centered horizontally and vertically.

NEVER

No outline. No shadow. No gradient. No second color inside the logo. No distortion. No leaf symbol.

Color and typography

A deliberately limited system for maximum recognition.

MERCHANDISE

HIERARCHY

A feed that is recognizable before the logo

Product, macro detail, launches and brand statements work as one grid.

Consistency without repetition

Every post has one objective and one dominant visual idea.

PRODUCT

Hero packaging, product name and one clear action.

DETAIL

Macro texture used as proof, not decoration.

DROP

Condensed headlines for launches and restocks.

BRAND

Calligraphic logo and abstract strokes for recognition.

TRUST

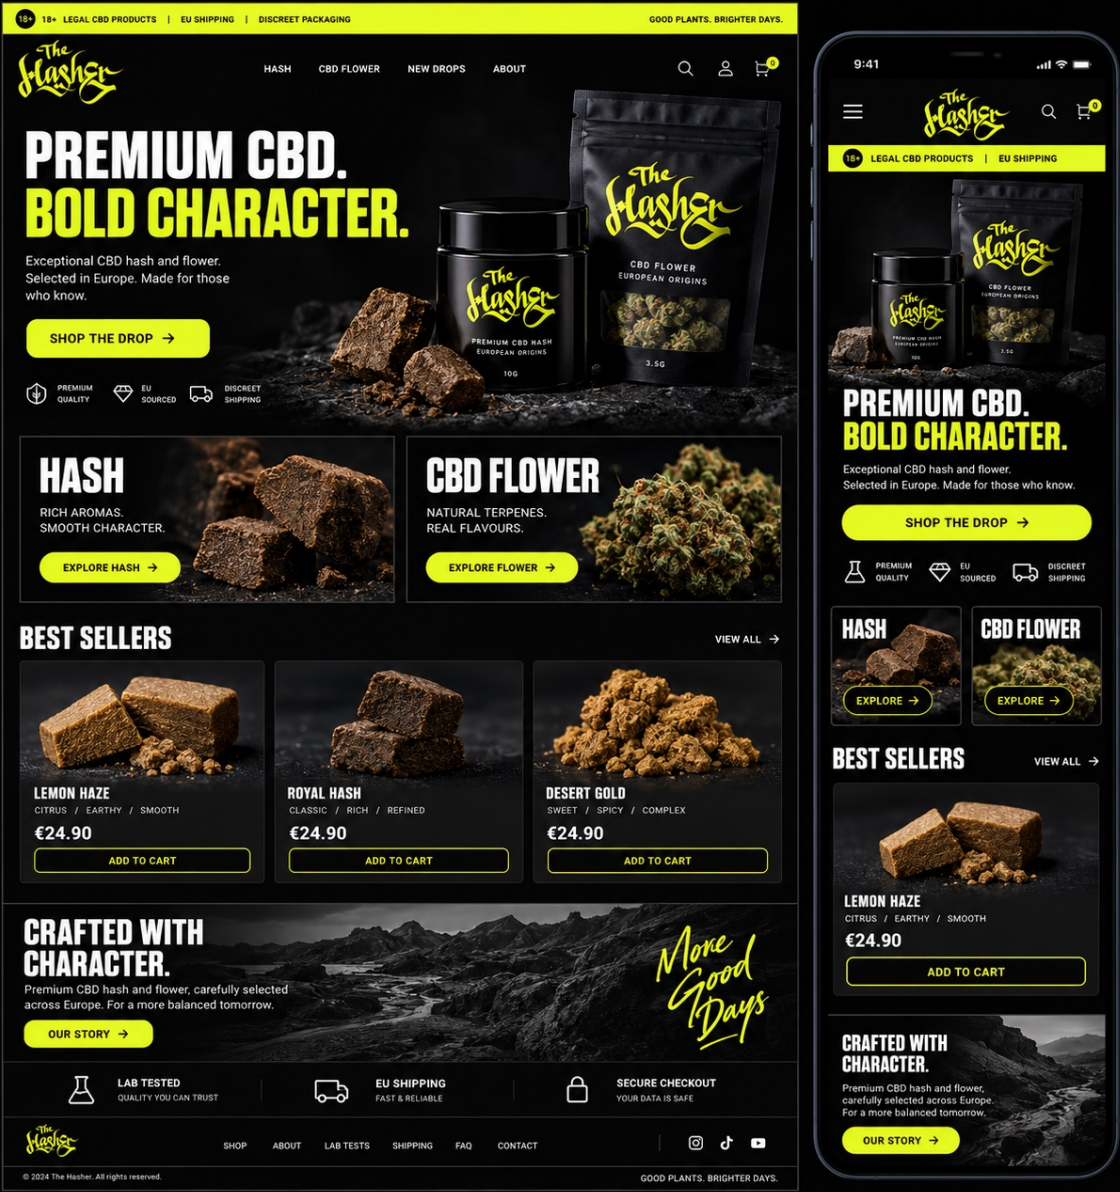

Batch facts, laboratory documentation and delivery clarity.

STORY

Fast vertical layouts with strong mobile hierarchy.

Premium design that still converts

Desktop and mobile share the same product-first hierarchy.

Rules for every channel

A practical system for designers, marketers and retail partners.

LOGO Use one flat color only.

COLOR Reserve acid yellow for identity and action.

TYPE Condensed headlines; neutral information text.

PHOTO Accurate product texture, controlled black backgrounds.

COPY Short, concrete and free from unsupported claims.

LEGAL Validate labels, advertising and shipping by country.

Production deliverables

The assets required to turn the concept into a controlled commercial identity.
